Sponsors:	PORTA High School GIS2GPS – Education Division
Subject:	GPS2GIS Adventure
Cost:	\$300.00 – includes all materials, text, data, and software
Registration Limit:	16 max
Target Audience:	All 3 – 16 formal and non-educators and school technology coordinators, who want to support students by exploring the world in a problem solving, computerized environment.
Description:	This class is a fast approach to GIS and GPS for 3-16 educators who want a direct approach to using GIS, GPS and its related resources with their students in the classroom. Teachers will learn what GIS and GPS are about, why it is important in education, and ways of implementing this technology into their school curriculum. The first part of the class will provide teachers with basic GIS knowledge and how to work with free ArcExplorer software in the classroom. The second part of the class will provide teachers with the basic concepts of GPS, how to use the GPS unit, collect data and then use the results with a GIS application. No prior GIS or GPS experience is necessary; however, the following computer skills are suggested. Making folders, moving files from the CD to a specific folder, and navigating folder structure. Helpful but not required: experience using Microsoft Excel..
